Pilot Guide

C172 CLASSIC

C172 Classic Pilot Guide

About the aircraft

A four-seat, high-wing trainer with a carburetted piston engine and steam gauges.

The Classic model reproduces a well-used club aircraft, dents and all.

Item	Value
Engine	160 hp, four cylinders
Fuel	40 US gal usable
Cruise	110 kt TAS

Before flight

Walk around the aircraft on the EFB and drain the fuel sumps.

Check the oil level and the tyre pressure before every flight.

Starting the engine

Mixture rich, carburettor heat cold, prime three strokes in cold weather.

Throttle open a quarter inch, clear the propeller, master on, key to START.

Item	Value
Oil pressure	Green within 30 s
Idle	About 800 rpm

Takeoff and climb

Flaps up for a normal takeoff. Rotate at 55 kt and climb at 74 kt.

Item	Value
Vr	55 kt
Vy	74 kt
Vx	62 kt

Landing

Downwind at 80 kt, base at 70 kt, final at 65 kt with full flaps.

Item	Value
Vref full flaps	65 kt
Stall full flaps	40 kt
